

# AGE CONCERNS

All we want is what anyone wants: the right to live, the right to serve the ship, the chance to use our skills and knowledge to ensure humanity's survival. What's so wrong with that?

## AGE – THE RAVAGES OF THE SYSTEM

- New 'baby amnesty' gives new chance at life to children.
- But at what cost?

By now I'm sure you've all heard about the crop of babies overlooked by the system, right? The ones that Morning Rainbow and Mordecai White arranged an amnesty for, giving them a decent shot at life on this ship? Yeah, of course you've heard of it.

And I'm sure it won't come as much of a surprise to you, after all I'm sure you're pretty clued up, that these babies weren't just left lying around unregistered. No, this was no mere 'administrative error', that's just a lie told to Computer to get it to accept them even existed; in fact those babies came from Blackout.

We at Age Concerns have the utmost respect for the compassion and liberality that led to this amnesty, we're all in favour of giving a chance to those forgotten by the system (even if such kindness is not extended to us, it's still nice it exists). It's just a shame that such compassion also led to the murder of Andreas Viteri, beloved doctor and paediatrician, who was blamed by for the supposed 'error'. As such the 78-year-old, who was allowed to live as long as he remained useful, was judged no longer needed and thus recycled.

Surely this is yet further evidence that our system is broken, when even acts of kindness lead to death.

Boys and girls, it is time for reform, time to throw off the oppression that creates such cruelty.

Please. Before anyone else has to die.

## WAR OF WORDS – A TIRED OLD FIGHT

- NEW TACTIC IN THE WAR AGAINST AGE DISCRIMINATION

For every week that our unjust laws that unfairly victimise Over 65's are not repealed, we will publish a terrible visual pun. These will keep coming until we have justice. There is no escape.

## ANNOUNCEMENT – AGE CONCERNS TURNS AWAY FROM SUBVERSION AND CASTS OUT INSTIGATOR

Boys and Girls, it is with some reservations that we make the following announcement: leading Age Concerns operative, **Hades Black**, has been cast out of the movement. While he told us he was on our side, it has become clear he was using us to undermine and distract Harmony in the hope his illegal activities would go unnoticed. Age Concerns hereby apologises for the subversion we have spread. While we still oppose the injustice of the Over 65 Law, we realise we have been going about it in entirely the wrong way and spreading sedition as we have been doing only harms the *Asimov's* morale. You will hear from us again when we find a more acceptable and constructive way to bring about change to the system. Brothers and Sisters, we will still rise up, but not this way.

SUPPORT RIGHTS FOR OVER 65'S.  
MAKE THE SHIP A BETTER PLACE.
